

# GAURI KATTI

Frontend Engineer — React.js — JavaScript — TypeScript  
gaurikatti2806@gmail.com | +91-8080324256 | LinkedIn | GitHub | Portfolio

## PROFESSIONAL SUMMARY

Frontend Engineer with 2+ years of experience building scalable enterprise web applications using React.js, JavaScript, and TypeScript. Experienced in developing reusable UI components, optimizing frontend performance, integrating REST APIs, writing frontend tests, and debugging production issues. Skilled in React ecosystem, component architecture, state management, and modern frontend development practices.

## EXPERIENCE

### Connecticus Technologies Pvt Ltd (Client: Siemens DISW)

Pune, India

Software Development Engineer

Mar 2025 – Present

- Developed scalable React.js modules for Teamcenter Active Workspace using JavaScript, building responsive and production-ready frontend solutions.
- Refactored legacy code by removing redundant event publishers and optimizing batch job calls to improve application performance and maintainability.
- Improved Jest and React Testing Library coverage by 27%, resolved production issues, and reduced critical defect backlog to zero.
- Collaborated with backend teams to integrate APIs, optimize data flows, and deliver end-to-end frontend features.

### Connecticus Technologies Pvt Ltd (Client: Siemens DISW)

Pune, India

Graduate Trainee Engineer

Aug 2024 – Feb 2025

- Worked on Teamcenter Active Workspace for Siemens DISW, debugging application issues, enhancing exception handling, and performing root cause analysis of production defects.
- Collaborated with cross-functional teams to analyze requirements, implement fixes, and improve overall software quality.

### Connecticus Technologies Pvt Ltd

Pune, India

Software Development Engineer Intern

Jan 2024 – Jul 2024

- Developed frontend features using React.js, integrated REST APIs, and contributed to web-based application workflows.
- Integrated Jira APIs for automated task tracking workflows using React.js and Postman.

## TECHNICAL SKILLS

**Frontend:** React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Material UI, React Hooks, React Router, Context API, Zustand

**Frontend Concepts:** Component Architecture, State Management, Responsive Design, Performance Optimization, API Integration

**Backend:** Node.js, Express.js, MongoDB, REST APIs

**Testing:** Jest, React Testing Library, Cucumber.js, Gherkin

**Tools:** Git, GitHub, Postman, Chrome DevTools, VS Code

**Languages:** C++

## PROJECTS

### AI-Powered Voice Task Management Platform | React.js, TypeScript, Node.js, Express.js, MongoDB

- Built an AI-powered task management platform with voice-based task creation, Kanban workflows, and responsive user interfaces.
- Designed reusable React components, integrated REST APIs, and implemented scalable frontend workflows for task management.
- Optimized component architecture and application performance to improve maintainability and user experience.

## ACHIEVEMENTS

- Vice-Captain of RNXG robotics team and represented the team at DD ROBOCON 2023, achieving 97/100 and 96/100 scores in competition rounds.
- Winner of Smart India Hackathon Internal Round 2022 and member of the winning team at TIAA Inter College Hackathon 2023.
- Secured AIR 9 in CodeSpire Ideathon organized by Acropolis Institute of Technology and Research.

## EDUCATION

### Shri Guru Gobind Singhji Institute of Engineering and Technology

Nanded, India

B.Tech in Computer Science and Engineering — CGPA: 8.28/10

2020 – 2024
